Byzantines

This course offers students an intensive survey
of Attic Greek grammar and vocabulary over
three weeks, covering approximately two
semesters worth of material. Additionally,
students will begin translating short passages of
Greek text.

The course is designed to be an introduction for
students interested in the Classics who would
like to move more quickly to begin translation
courses, or as a resource for treasures of
Classical languages such as Latin who would
like to begin teaching Greek as well.

St. Anthony of Padua 2017 School News

Peeking into Grade 2....

The second graders have put in so much hard work so far this year! I am very proud of all the work these students have accomplished.

The Science Fair was a huge success thanks to the hard work and dedication of our students. Each student worked with a team to complete a Goldberg Project that used four simple machines to close the door on the castle. The final products they came up with were amazing to see and they were all extremely proud of what they had accomplished as a team.

In math, the students have been working hard on mastering their money and time telling skills. These are some tricky concepts and I am thrilled at how quickly they have been able to grasp them.

In Religion, we have been learning about the importance of prayer and how powerful it can be for ourselves and for those around us. The students are also getting ready to make their First Communion this May.

This is an exciting time to be in second grade!
