Peeking into...Technology!

The first couple of months in technology have been a great learning experience for the students. They are learning all sorts of new terminology and skills along with how they can apply that knowledge to the applications you might use regularly. Pre-K and Kindergarten students have been developing their skills of using the mouse while learning more about the letters of the alphabet and different words that begin with each letter. Each week we focus on a new letter and do many activities that pertain to words that begin with that letter. Grades 1-5 have been learning about fonts, alignments, styles, borders, pictures and any other formatting techniques. They are using formatting to create documents and images of their own. The sixth graders have begun using PowerPoint and I am looking forward to their NH Wildlife presentations to see what they have learned about insects, birds and wildflowers. I am excited about the rest of the school year with the great students I am blessed with each day!
